

Practical 05 – Exercise 05

Data Manipulation (10 marks)

Important Notes:

1. Bring the following to the practical session:
 - a. The Practical Textbook and/or the lecture notes for the exercise class in which the exercise was explained
2. SQL scripts are what is marked
 - a. Scripts which run and perform what they are supposed to do get full marks
 - b. Scripts which do not run will be marked on their own merit
3. Please refer to Hotek Chapter 9, as well as the class notes (06SQLCh09.pdf) on ClickUP for examples on generic structures as well as specific code.

CONTEXT:

The practical exercise is based on the Daspoort_Clinic database. Run the **05Prac – Daspoort_Clinic.sql** script to create and populate the database.

Queries – Daspoort Clinic

- Create **one** query that counts the number of allergies that each **male patient** has. **[10]**
- Display the patient name, surname gender and total number of allergies that the patient has.
 - Order by the patient with the least to the most number of allergies.
